

## TANZEEM-E-ISLAMI

**PRESS REPORT: 13 August 2023**

"بقائے پاکستان۔۔۔ نفاذِ عدلِ اسلام" مہم

**"Baqa e Pakistan: Nifaz e Adal e Islam"**

**(Pakistan's Survival: Establishment of Islamic Justice) campaign**

**11 August through 03 September 2023**

**Lahore (PR):** Although the establishment of Pakistan was the outcome of persistent political struggle by Muslims under the leadership of Quaid-e-Azam, it was in fact the faith-provoking and galvanizing motto of *"Pakistan Ka Matlab Kya, La Ilaha Il Allah"* which bestowed upon this endeavor the potency which forced the British rulers and the Hindu coalition of All India Congress to abandon their vision of a "United India". Then, by the Grace of Allah (SWT), a year and a half after Pakistan attained independence in 1947, the Objectives Resolution was passed in 1949, which fittingly determined a direction for the nascent state. In addition to this, 31 scholars encompassing all schools of religious thought devised a formula based on 22 unanimous clauses providing the roadmap for moulding Pakistan into a modern Islamic welfare state, essentially rendering the absence of an Islamic system of justice inexcusable. The fact of the matter is that at the time of the creation of Pakistan, we pledged to Allah (SWT) that we would establish His revealed constitution (The Qur'an and Sunnah) in this country. Contrarily, however, we entered into slavery of godless entities instead of fulfilling our pledge. Thus, the first whip of Allah's (SWT) punishment befell us in 1971 when East Pakistan was separated. Unfortunately, we did not learn our lesson and are obstinately adamant on rebellion against Allah (SWT), even 77 years after Pakistan's independence. Today, we are at the epicenter of divine punishment on both the individual and collective planes for forsaking our *Deen*. Not to mention that honor, integrity and morality are virtually extinct from our society because of this very reason. We are at perpetual loggerheads amongst ourselves on religious, linguistic, geographical and political grounds. Economic crises and threats to national security are ever-increasing. Manifestations of Allah's (SWT) displeasure are materializing constantly on the individual and collective levels as a result of our sins and rebellion against Allah (SWT). We are stubbornly refusing individual and collective repentance even after witnessing devastating floods, destructive storms, fatal heatwaves, mounting catastrophes, frequent earthquakes, alongside other natural disasters. The unambiguous reality is that in order to provide the necessary foundations for the survival of Pakistan, the establishment of the Islamic system of justice is vital. The only course of action through which the prolonged existence of a unified and vibrant Pakistan, and its strengthening and stabilizing is possible, is that we initiate a genuine struggle to establish Pakistan as a true

Islamic welfare state, by returning to our origin, to the founding ideology i.e., Islam, upon which this country was created, and that we declare this very ideology the basis of all our systems.

The reality is that establishment of Islamic justice is crucial to Pakistan's survival. In order to direct the attention of the masses and the ruling elite towards this pivotal responsibility, Tanzeem-e-Islami is organizing a nationwide "*Baqa e Pakistan: Nifaz e Adal e Islam*" (Pakistan's Survival: Establishment of Islamic Justice) campaign from 11 August through 03 September, 2023. The campaign commenced with a special Khitab e Jumu'ah delivered by the Ameer of Tanzeem-e-Islami, Shujauddin Shaikh, at Masjid Jamia al Qur'an, Quran Academy, DHA, Karachi. An exclusive video message of the Ameer of Tanzeem-e-Islami is also being disseminated. On 14 August 2023, a seminar on the topic "*Baqa e Pakistan: Nifaz e Adal e Islam*" was held in Karachi, which saw the participation of renowned religious scholars and members of the intelligentsia. Over the course of the campaign, letters will be sent by the Ameer of Tanzeem-e-Islami to parliamentarians, media, judges, politicians, religious scholars and other important national personalities. Multiple press releases will be issued on the topic. During the campaign, the necessity of establishing a system based on Islamic justice for the survival of Pakistan will be emphasized through rigorous activities, spread across print, electronic and social media. A nationwide promotion campaign aimed at demonstrating the importance of establishing Pakistan as a true Islamic welfare state will also be organized. Tanzeem-e-Islami's Halqajaat (centers and regions) all over Pakistan, alongside numerous activities, will connect and communicate with important religious and political figures to relay the message of the Ameer. Friday sermons and public programs adhering to the subject will be organized. Furthermore, to ensure the establishment of the Islamic system of justice for the survival of Pakistan, peaceful rallies will be arranged across the country.

It is imperative to eradicate the current environment of oppression and injustice as well as social-class-based conflicts by working towards the enforcement of the system of Islamic justice. The truth is that the survival of Pakistan is linked to the enforcement of the just Islamic system in the country. He emphatically appealed to the masses and the ruling elite by inviting all and sundry to join hands in the struggle for "*Baqa e Pakistan: Nifaz e Adal e Islam*", so that we may play our due roles in the fulfillment of this paramount duty.

May Almighty Allah (SWT) be our Helper and Guide. Ameen!
